

NEW BUILD HOUSE / ATELIER COMBINED

€ 469.000

Ulenstraat 82, 1080 Sint-jans-
 molenbeek

 3  140 m²

This 234.6m² studio apartment is unique in the Brussels real estate offer and the ideal way to combine your residence with a professional activity. Through the covered gallery next to the green courtyard, we enter the commercial area that appears very spacious thanks to the double-height void, so there is not only a lot of light but also a great visibility to make oneself known. Outside the multipurpose open space we find on the ground floor another kitchenette, separate toilet and storage room. On the upper level which is in contact with the ground floor via the mezzanine, there is still a lot of extra space for e.g. an archive, extra desks or meeting room and here there is also a separate storage room.

Via the spiral staircase we arrive on the level of the living space. It is one open unit with an ideal ratio for a kitchen with island, large dining table and large lounge. The glass area is almost 9m and opens onto the south-east facing terrace of 15m². The terrace is enclosed with an innovative construction of sliding wooden slats allowing one to determine the sunlight and privacy for each moment. The upper floor comprises a separate toilet, two storage rooms, bathroom (double sink and walk-in shower) and three bedrooms, each with access to the terrace of 9.9 m² finished with the same system of wooden slats as the terrace below.
